

Titanium

Advanced Hi-Performance

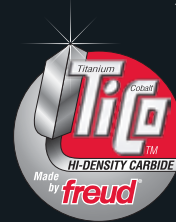

SHIELD™

Titanium/Aluminum Coating

“It was amazing; we went to one blade cutting for two days compared to 16 blade changes with our old brand.”†

– Satisfied Freud customer testimonial

Freud TiCo™ Hi-Density Carbide is precisely formulated for ultimate cutting performance.

Unique Anti-Vibration Design stabilizes the blade; allowing truer, smoother, more precise cuts.

Freud laser-cuts each blade from 48 Rockwell steel plate – the world’s highest quality steel.

Freud’s hi-performance Titanium-SHIELD™ coating resists heat, corrosion and “pitch” build-up – up to 7x longer than standard polished blades.

Dare to Compare: Titanium SHIELD™ vs Other Blades

(Controlled testing shows that Titanium SHIELD™ coated saw blades last up to 7x longer than standard uncoated industrial saw blades.)*

Standard blades cut approx. 19 kms of board.

Freud’s Silver I.C.E.™ blades cut approx. 45 kms of board.

Freud’s Titanium SHIELD™ blades cut approx. 135 kms of board.

*“Standard blades” represents an average of 6 competitors in the industry. Please see your local Freud representative for individual comparisons.
